

ZEYNEP MAIDE DEMIR

Game Developer | Computer Engineering Student | Mobile App Developer

Türkiye | zeynepmaidedemir@gmail.com | linkedin.com/in/zeynep-maide-demir | github.com/zeynepmaidedemir

PROFESSIONAL SUMMARY

Computer Engineering student and game/mobile developer with international Erasmus experience in Poland, hands-on Unity/C# game development internships, and strong digital content/community leadership background. Experienced in building mobile apps, 2D/3D game prototypes, Firebase-based features, SEO content, social media growth, and student-focused technology education. Interested in game development, mobile products, ed-tech, community platforms, and creative technology projects.

TECHNICAL SKILLS

Game Development: Unity, C#, 2D/3D game design, FPS mechanics, level design, enemy AI, NavMesh, gameplay systems, testing and debugging

Mobile Development: Flutter, Dart, Firebase, Firestore, authentication, app store preparation, in-app purchase and metadata workflows

Programming & Data: C#, Dart, Python, C/C++, SQL, HTML, CSS, JavaScript, basic data mining and machine learning

Tools: Git, GitHub, Visual Studio, VS Code, Xcode, Android Studio, BigQuery, Canva, Adobe Premiere Pro, CapCut

Digital & Product: Social media strategy, content creation, SEO writing, campaign planning, analytics, community engagement

PROJECTS

Ward 13 - 3D FPS Horror Game | Unity, C#, GitHub: github.com/zeynepmaidedemir/ward-13

- Developed a first-person horror game set in an abandoned hospital with exploration, puzzle, inventory, medkit, key-card and keypad systems.
- Implemented enemy AI behavior including patrol, chase, search and attack logic using Unity navigation workflows.
- Built core gameplay features such as save/load flow, interaction systems, level progression and player feedback mechanics during internship project work.

MeetEra - Erasmus Student Community App | Flutter, Firebase, Mobile App Product

- Designed and developed a mobile platform concept for Erasmus and international students to discover students, events, communities and practical student needs in their destination city.
- Focused on onboarding, city-based discovery, community building and Gen Z-friendly product communication for international student users.
- Prepared app positioning, social media launch content, sponsorship ideas and App Store/LinkedIn project materials.

HabQuest - Gamified Habit Tracking App | Flutter, Firebase, App Store

- Built and published a habit tracking mobile app with gamified progress, difficulty-based XP logic and user-friendly habit management flows.
- Added production readiness features including privacy policy, terms links, delete account flow, English UI improvements and store submission assets.
- Worked through App Store and Play Store release processes, metadata preparation, screenshots and review feedback improvements.

Gümrük Muhafaza - 2D Customs Inspection Simulation Game | Mobile Game, 2D Simulation

- Created a mobile game concept where players inspect luggage, identify suspicious items, question passengers and decide whether a traveler is guilty or innocent.
- Prepared game positioning and store visual direction for App Store and Play Store using official screenshot requirements and mobile mockups.

Naive Bayes SMS Spam Detection | Python, Machine Learning, Data Mining

- Developed a text classification project using Multinomial Naive Bayes to classify SMS messages as spam or non-spam.
- Practiced preprocessing, model training, evaluation logic and presentation of data mining results.

Swords of Vengeance | Unity, C#, 3D Game Development

- Developed a game project focused on combat-oriented gameplay, player control, level flow and interactive game mechanics.
- Practiced Unity scene setup, gameplay scripting, object interactions, testing and iterative improvement for a playable game prototype.

PROFESSIONAL EXPERIENCE

Instructor - Mentor | Deneyap Türkiye | Erzincan, Türkiye | Jan 2026 - Present

- Support workshop operations, assist instructors, coordinate training activities and improve the learning environment for technology-focused student programs.

- Mentor students in hands-on technology education and help them build problem-solving, teamwork and project development skills.

Content Creator | Erzincan Binali Yıldırım University | Erzincan, Türkiye | Oct 2024 - Present

- Create social media content, edit videos, design visuals, plan campaigns and analyze engagement metrics for the university's official digital channels.
- Contribute to strategic digital communication efforts to increase account growth, engagement and wider audience reach.

Content Writer | icerikler.com | Remote | Nov 2023 - Present

- Write SEO-friendly content for different companies, product categories and digital publishing needs.
- Adapt content tone, keywords and structure for web visibility, readability and audience engagement.

Social Media Manager | Craft Tech Lab | London, United Kingdom / Remote | 2023 - Present

- Create digital storytelling content for an art-focused audience and transform ideas into engaging social media narratives.

COO / Social Media Manager | Today Coupon List | Istanbul, Türkiye / Remote | May 2021 - Present

- Manage social media operations, digital campaigns and content workflows for a coupon and affiliate-oriented online platform.
- Analyze audience behavior, engagement patterns and product interests to support growth and conversion-focused content planning.

Instructor | Deneyap Türkiye | Erzincan, Türkiye | Apr 2025 - Jul 2025

- Taught middle school students Electronic Programming and Internet of Things concepts using Deneyap Card, sensors and circuit-based projects during a fixed-term instructor role.
- Guided students in building real-life projects and developing technology creator skills.

INTERNSHIP EXPERIENCE

Game Development Intern | Katowice Institute of Information Technologies | Katowice, Poland | Jul 2025 - Sep 2025

- Worked on 3D FPS game development with hands-on experience in level design, AI integration, multiplayer systems and advanced gameplay mechanics.
- Improved Unity, 3D modeling, gameplay optimization, debugging and collaborative game production skills in an international internship environment.

Game Development Intern | Katowice Institute of Information Technologies | Poland | Jul 2024 - Sep 2024

- Gained experience in Unity programming, 2D/3D graphics, animation, game testing, debugging and project management.
- Strengthened game development foundations through Erasmus internship mobility and practical international teamwork.

EDUCATION

B.Sc. Computer Engineering | Erzincan Binali Yıldırım University | Türkiye | Oct 2022 - Jun 2026

Erasmus Exchange - Computer Engineering | Lublin University of Technology / Politechnika Lubelska | Lublin, Poland | Feb 2024 - Jul 2024

High School Diploma | İstanbul Üsküdar Lisesi | İstanbul, Türkiye | 2017 - 2021

LEADERSHIP & COMMUNITY

President | Erasmus Student Club | Erzincan Binali Yıldırım University | 2026 - Present

- Lead student community activities focused on Erasmus awareness, international student experiences, speaking practice and peer-to-peer guidance.

Social Media Content Creator | Google Developer Student Clubs (GDSC) | Erzincan Binali Yıldırım University | 2024 - 2025

- Supported student developer community communication through social media content, event promotion and digital storytelling.

CERTIFICATIONS & TRAINING

- White Hat Hacker Training - Siber Vatan Program, Northeastern Anatolia Development Agency (KUDAKA), Mar 2026
- Google Cloud Data Analyst Boostcamp - Istanbul Data Science Academy & Google Cloud
- BÜSİBER Cybersecurity Summer Camp 2023 - Forensics, Web Security, Network Pentesting and Defense
- Google Developers / Google Cloud training and developer events
- Otomotiv Yaz Kampı and 16. Bilişim Teknolojileri Zirvesi
- The New Trend in the Software World: The Key to Future Careers
